

Goals

PEPG's goals encompass, but are not limited to, the following:

- ✓ Provide an open forum for the pipeline industry (operators, contractors and regulators) to communicate on pipeline employee performance issues.
- ✓ Assist industry by identifying critical elements of employee performance.
- ✓ Recommend guidelines for operator qualification.
- ✓ Maintain resource guide for training technology.
- ✓ Provide opportunities for self-education.
- ✓ Provide opportunities for information exchange.
- ✓ Provide open dialogue within the industry on pipeline performance issues.
- ✓ Provide effective training for operators, contractors, and regulators that takes into account the various learning styles of the students.

Pipeline Employee Performance Group

www.tsi.dot.gov/dti60

PEPG consists of training and operator personnel from industry, state and federal pipeline safety offices, and membership is open to all interested parties.

This resource group was established to share ideas and provide opportunities for continued improvement of the skills and proficiency of pipeline employees.
